DETAILS

Chairman, David Crouch introduced Rtn. Allan Lewis as our guest speaker for the night, Allan was the former City of Sale Engineer during the time of the Gas and Oil expansion and was instrumental in the promotion and development of the then City of Sale. During his time at the helm in Sale he oversaw the development of the cattle yards complex, the Sale Swimming Pool complex, and at the end of his time, here the Sale Station Relocation and the development of Gippsland Centre shopping complex on the site formerly occupied by the Sale Railway Station.

For his job talk Allan spoke of the need to continually seek and embrace change. During his address he detailed some of the projects that he was involved with in the time that has elapsed since he resigned as the City of Sale Engineer. It in this period that he formed Lewis McNaughton Project Management in with his partner Louis. They have been involved with many redevelopment projects across Melbourne.

Also during this time Allan was able to complete a master's degree with his thesis on the process of change.

Chairman David thanked Allan for his address to us tonight and closed the meeting.
